## Members Present

Andrew Armenia, Marc Ebuña, Charlie Emala, Nick Milano, Tiffany Milano, Zachary Rowe, Andrew Tamoney, Holden Tseeng, Brian Zaik

---

Mike opens the meeting at 9:38. Kyle is complaining that everyone is picking on him today, and Charlie mentions that it is because it is very easy. Last week there was no meeting, and since we held the GM Film Festival and the debates. The Film Festival went well, there were three eligible entries, and two non-eligible entries. The winners will get their prizes soon. We will be putting these videos on the website, although one of them may have copyright violations. The film in question had a David Bowie song that was sped up, so we may need to look into that. The other three videos would be able to go online no problem. The armory worked pretty well, although we may try for a different location next year.

The Drag Show was on Friday night as well, which went very well. We did have a few audio problems, which were fixed about a third of the way through the show. The AAW show was on Saturday, which was also a successful shoot. Holden did a great job coordinating at the AAW show as well.

On a sad note, our video switcher has failed, and is out for repairs. Hopefully we will have it in time for our production next weekend. Zach asks how far off in the future is the purchase of a new switcher, and Mike says that we probably will not have that anytime soon.

Wednesday Night Live is tomorrow night as well, volunteers are taken. Some conversations go on that I miss; I seem to be distracted tonight.

Next weekend, we are filming "Relay for Life", which starts at 6:00pm on Friday (the 17<sup>th</sup>), and will continue all night till the next morning (around 6:00am). There will be speeches, two or three bands, as well as a comedian. We will have some exciting things to shoot, as well as down time where we can just setup some static shots. We will be set up on the '86 field under a tent with UPAC Sound; we will be broadcasting the event on Campus cable as well as the Internet. As the event gets closer, we will send out more details. People are welcome to come out and help for a few hours at a time. Mike asks who is interested, and pretty much everyone raises his or her hand. Charlie says that

we may have our switcher back by then based on the “quickly-ness” nature of the business that is repairing the unit.

Scott on operations: Relay for Life will be fun. Someone suggests that we bring a couch to the field. We will have a lot of caffeine available as well. Charlie says that he will bring his cans of “Cocaine” which is the equivalent of 3 Red Bulls in one can. Scott takes a vote of who considers salsa to be a dip, and the majority rules that it is indeed considered to be a dip.

Kyle says that Empac is interested in having people work the day after the Relay for Life, so to contact him if you are interested.

Reilly: #1 watched clip on RPITV.org was the GM debates, #2 was the Battle of the Bands, and #3 was Sirsy from Wednesday Night Live.

Brian: Last week we aired the GM week debates live on Channel 6, Brian predicts that two people watched it. Brian also mentions that Reilly developed a nice way to make our little message in the corner of the screen pulsate. Brian would also like the club to know that the Vice President has discussed murdering the president of the club.

Scott says that “RPI TV does not condone religion”, and is presented with a large amount of laughter before he is able to correct himself.

Dan on productions: Is anyone interested in filming the Paksa event, which is on Saturday. On April 22<sup>nd</sup>, there will be a speech in the DCC on “Green Roofs”. We would like to capture it, and make it available on the website. The speech is from 2-4pm.

Holden would like to know who is in charge of editing the AAW show, and Reilly says that he could help if he would like.

This concludes the meeting for tonight, we will be emailing out reminders for this weekends events, and be sure to meet us at the closet at 6:00pm tomorrow for Wednesday Night Live (or after that at WRPI).
