Mike calls the meeting to order, asking people to raise their hands if they did not receive the notification for tonight's meeting. We are waiting for copies of our new equipment policy, which we will be voting on tonight.

Past events: Today's senate meeting was a record 17 minutes long, and was streaming live on UStream. Last Friday night was Cultural Pride Night, which went well. Tiffany was first-time directing, and did a very good job. There were some very interesting performances, and we will be distributing a DVD of the event sometime soon. Last Saturday was Women's Hockey vs. Bluewater Hawks which went very well. We are looking forward to this weekend's hockey game, which is the first Men's game of the season.

Our equipment policy is the document that governs the usage of all equipment. We are voting on a new version tonight, so I've stopped taking minutes so I can figure out which present members are qualified to vote. The new equipment policy passes with 27-1-0 (two members present are ineligible to vote).

Dan decided to head up the RPI TV news segments this semester. Last week, right before Freshman Elections, our first segment was released which included news about the Hockey Line, and more. It was very well received. This week, our news segments will include the grand opening of "ECAV" which takes place on Saturday. Dan asks for a few members to take charge of capturing this event on Saturday. If anyone has any other ideas of recent news stories that could go in this week's segment, feel free to email rpitv-news@rpi.union.edu.

Tomorrow is Wednesday Night Live with "The Relics". Kyle asks what the probability is that the drummer will be drunk, and Dan tells him that he thinks the probability is 63%. Volunteers are taken for this event.

Dan would also like to mention that HVCC is holding a film festival throughout the capital region with some strange requirements. There is a \$1000 cash prize.

The first men's hockey game of the season is on Saturday evening vs. Prince Edward Island, starting at 7:00pm. We will be meeting at the office around 4:00pm, if you cannot make it to the office at 4:00pm, let someone know before arriving at the Field House late so you can get past security.

Scott on operations: Now that the new equipment policy has passed, the old equipment usage contracts are no longer valid. We will have copies of the new contracts at events for people to sign.

Trigs asks if there will be an official public list on who is an "Equipment Supervisor/Operator", etc. Mike tells him that this list will be public sometime soon.

We are also missing a boundary microphone, which is in a small black pouch. If anyone has seen it out of place, please let us know by emailing rpitv@union.rpi.edu (the officer's list).

rpitv-mem@union.rpi.edu is the email list of members of RPI TV, which we like to have only officers using.

Brian would like to tell everyone that cables (and other equipment) should be properly packed away before leaving an event. The cables should be wrapped up properly, and Velcro-tied so they will not come undone. If you would like to know how to wrap cables properly, let any of us know and we will be glad to teach you the proper way.

Reilly lets everyone know that we have finalized our fall sports schedule, so keep an eye out for ads on concerto, and the actual games broadcasted live on campus cable channel 6. He would also like to let everyone know that if any of their credits on rpitv.org are wrong, to please let him know and he will fix them.
