

## RPI TV Executive Meeting 2010-04-20

**Officers Present:** Reilly Hamilton, Tiffany Milano, Andrew Tamoney, Zach Rowe, Alexandra Niaura, Kyle Mackenzie, MacKenzie Sullivan, James Petranik, Jonathan Goldszmidt.

**Members Present:** Brian Michalski (recording secretary).

Brian Michalski is voted into the room to serve as secretary. He is unprepared for this role, but there is a job to do.

There are six tapes to be captured from Ms. RPI. President Hamilton hopes to capture these tapes tomorrow. Input one has the better audio from this event. Andrew says "Mackenzie was cute."

The Final Debates went poorly. In addition, the chat room is an issue and will not be used until changes are made. Reilly Hamilton is unsure if this meeting is the correct venue to address this. Reilly dropped the ball putting the production online. Reilly would like the CDTA to sponsor hockey, so we can drive a bus across the screen. This is a discussion for next season.

Friday's Drag Show went very well. Reilly hope's that they will be ready to sell tomorrow.

Lacrosse this past weekend went very poorly. Unfortunately, the volunteers didn't pull through very well, and we failed to send out a reminder email. Reilly hopes we will be able to get better attendance at the Union night game.

We will not be able to film baseball this year.

Benchmarking will be taking place Thursday, during the same time as the SSTF and poll sitting. Benchmarking will be a 2-camera shoot, scheduled for 6:00pm in the Patroon Room.

Relay for Life: We need to contact the event organizer before we can move forward with this event. If nothing is going on, maybe this event should be filmed as a new segment. Maybe next year...

Urinetown will be filmed on Saturday, which will probably be a two camera, no-edit shoot. Reilly will preview the event on Friday to see how it looks.

Alex Niaura will be checking out Autocross on Saturday. We need to meet with them to figure this event out. Reilly sent an email regarding this event, which Alex sent along to the people because they are her friends. Most of the concerns are safety related, specifically for the safety of the camera operators. Maybe we can shoot from the fourth floor kitchen in North. Like track and field, timing is very important for this event. Reilly has been thinking of all the cool things we can do with titles. Kyle advises all to not get their hopes up, because they could be disappointed.

Anasha is voted into the room and begins presenting the RSVP event. The event will include several 3-minute PowerPoint presentations/discussions followed by a few longer presentations and a longer discussion. Roughly half of the presentations will be given by students, half by faculty/staff. The

organization of this event has been confusing, but Reilly is working it out. We will tie into the projector feed and have a video feed as well. Reilly announces the switcher be used to film the RSVP event instead of the benchmarking.

The officers now debate the value of the using a switcher for the benchmarking presentation. Reilly have informed the recording secretary he is not allowed to talk. Zach questions this order and a vote is held. Only Zach and James vote yes to allow the recording secretary to talk.

James reviews some future events, possibly for the filming of a Rock Band-based show. Friday, May 7th is looking like the best date for this event.

We need to design some stuff for the Mozart Requiem, so we have a cover and label for the DVD. Tiffany proposes we use the music book cover. Reilly would like to these out before Thursday. Reilly will work on an insert that will explore insert for Blu-ray Media.

Matthias has been voted in to the meeting. Anasha has been voted out.

Matthias is requesting senior equipment operator status. Matthias has withdrawn his request. He exits the room.
