Finally, we just learned that RPI Athletics has an exclusive contract with B2 Video. That means we cannot stream sports production live over the internet. Which is very sad indeed.

Tiffany Milano has nothing to report.

Zach Rowe is about to setup hockey on channel 6. He is setting it up on the campus cable right now! It should be up within the hour.

Kyle Mackenzie says everything for the NAS is here and it's been configured and everything. It's currently backing up everything on our servers now.

Alex Niaura has nothing to report

Haris had many things to report, but I was speaking so I didn't write it down. Haris suggests that people come to Executive Committee meeting – it is very exciting stuff.

Andrew Tamoney has \$300 of RPITV t-shirts. Go to him to retrieve your cash and shirts. Additionally Mathias will be sending something out on the rptv-creative list.

James and Sean don't have much to report, but James says he half installed the alarm system. He says the alarm is VERY loud.

Kyle says working with EMPAC they streamed the first live event and we got viewers from all over the world!

Finally, Reilly claims the meeting is over.
