

RPI TV Executive Meeting Minutes

November 16, 2010

Officers Present

Reilly Hamilton, Tiffany Milano, Andrew Tamoney, Alex Niaura, Kyle Mackenzie, Sean Andrese, Mackenzie Sullivan, James Petranik, Robert McDonald.

Members Present

Brian Michalski (acting secretary)

Past Events:

SLPPR went well. Reilly did lots of audio editing in post.

Sheer Idiocy also went well, James is going to touch it up in post.

The Dance Recital DVCam deck recording selector switch was in the wrong position so we're going to use some wide cut footage for some of this. This "feature" will let Reilly work on creating a multi-angle DVD for the Dance Club. The audio came out well.

Hockey later that night went well. Producer Tamoney felt the event went really well, an President Hamilton said we had great camera work from everyone. Sean made a few scoreboard mistakes, but nothing critical.

Reilly noted that the desk in the closet is a mess. If Station Manager Rowe was here we would hope he might inspire someone to clean it up.

The Players `Noises Off` went well.

Upcoming Events:

7:00pm this Thursday there is a presentation `Misconceptions in Islam`. Reilly will film this if no one else volunteers. This event was approved.

2:00pm this Saturday there is a Women's Hockey game. Reilly hopes to give more people practice at switching and technical directing and other new positions. If we don't have enough crew we're cutting a camera or two to make sure we have enough people for Technical Directing and Directing.

Also that night we have a service request for Partial Credit at 8:00pm, which we messed up last time. We might be able to post-edit this event pending the crew availability.

Next weekend will be the holiday tournament @ RPI. At the minimum we hope to have a one camera production with titles.

The Tuesday we come back we might be filming the Greek Lip Sync event.

Field house Infrastructure:

XLR tie lines - We're looking to run permanent XLR to the camera locations for wired intercoms. We might also run a BNC feed for WRPI so they can see what is going on if they want.

Constitution Subcommittee:

We are running out of time to do this. Any constitution work is going to have to happen over Thanksgiving break.

Blimp Subcommittee:

Tamoney reports they had a meeting, it was pretty short. They are currently working on coming up with a list of parts to come up with cost and weight. Details are still in the works.

Recruitment Subcommittee:

Nothing to report.

Egg Crate Subcommittee:

Nothing to report.

Security Subcommittee:

The security system is in progress.

Storage Subcommittee:

The NAS is working. Reilly would like a media/file routing plan.

Other Business:

Reilly will be preparing a ballpark estimate of labor invested for Athletic events, the exact purpose of this document is a bit fuzzy. Rick has asked us look for additional events on campus that would

Kyle is upset with Reilly's meeting that happen with Rick. Kyle feels the meeting hurt us more than it helped it. Sean walks out of the room and sighs. Reilly claims the meeting was about "how to run RPI TV" and Kyle believes the meeting was about previous business discussed at last weeks Executive Committee meeting. Reilly is not going to stop Kyle from attending future meetings with Kevin (specially a future meeting about the video wall), but he believes it will be counter productive. Tamoney agrees, Tiffany disagrees.

With nothing else on the agenda, the meeting adjourns at 9:15pm.
